He meets with families who have lost loved ones and children who have been traumatized by violence. And he sees how war has decimated wildlife populations and polluted rivers and lakes.

But Prepare For War is not just a story of despair. It is also a story of hope and resilience. Wade meets with people who are working to rebuild their lives and communities in the wake of conflict. He sees how fishing can provide a source of food and income for people who have lost everything else. And he learns how the natural world can play a role in healing the wounds of war.
